1. Which digital devices do you use during work?

[Weitere Details](#)

yes no

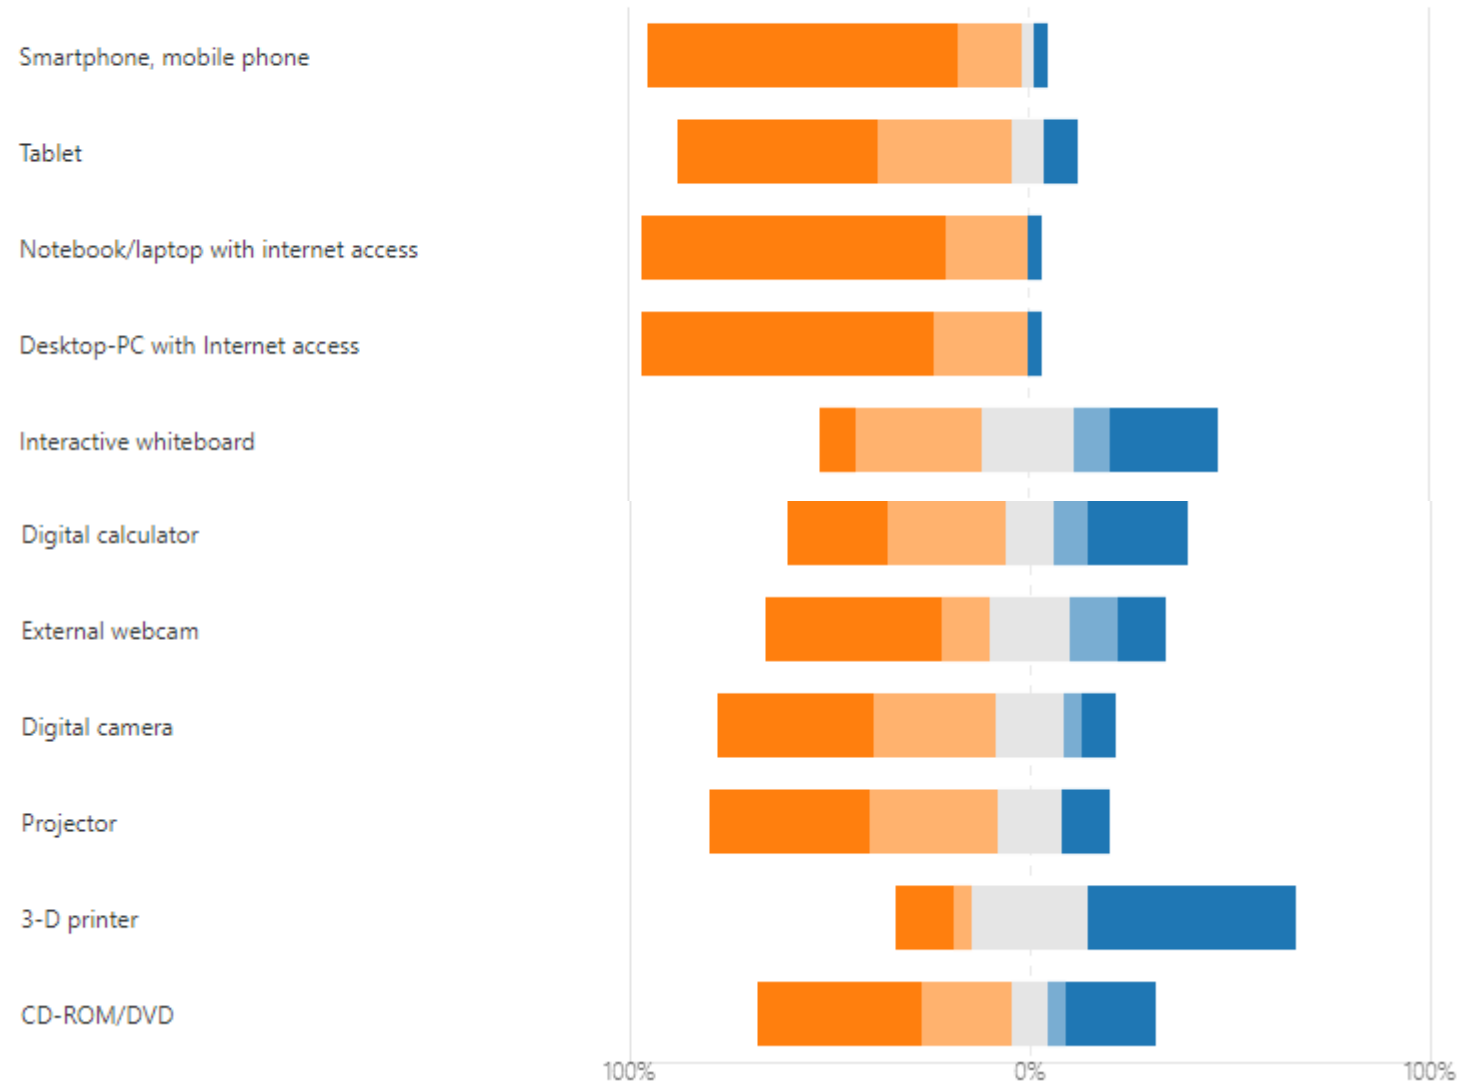

33 participants

2. How do you rate your competence in handling the digital devices you use

[Weitere Details](#)

■ very good
 ■ good
 ■ mediocre
 ■ low
 ■ none

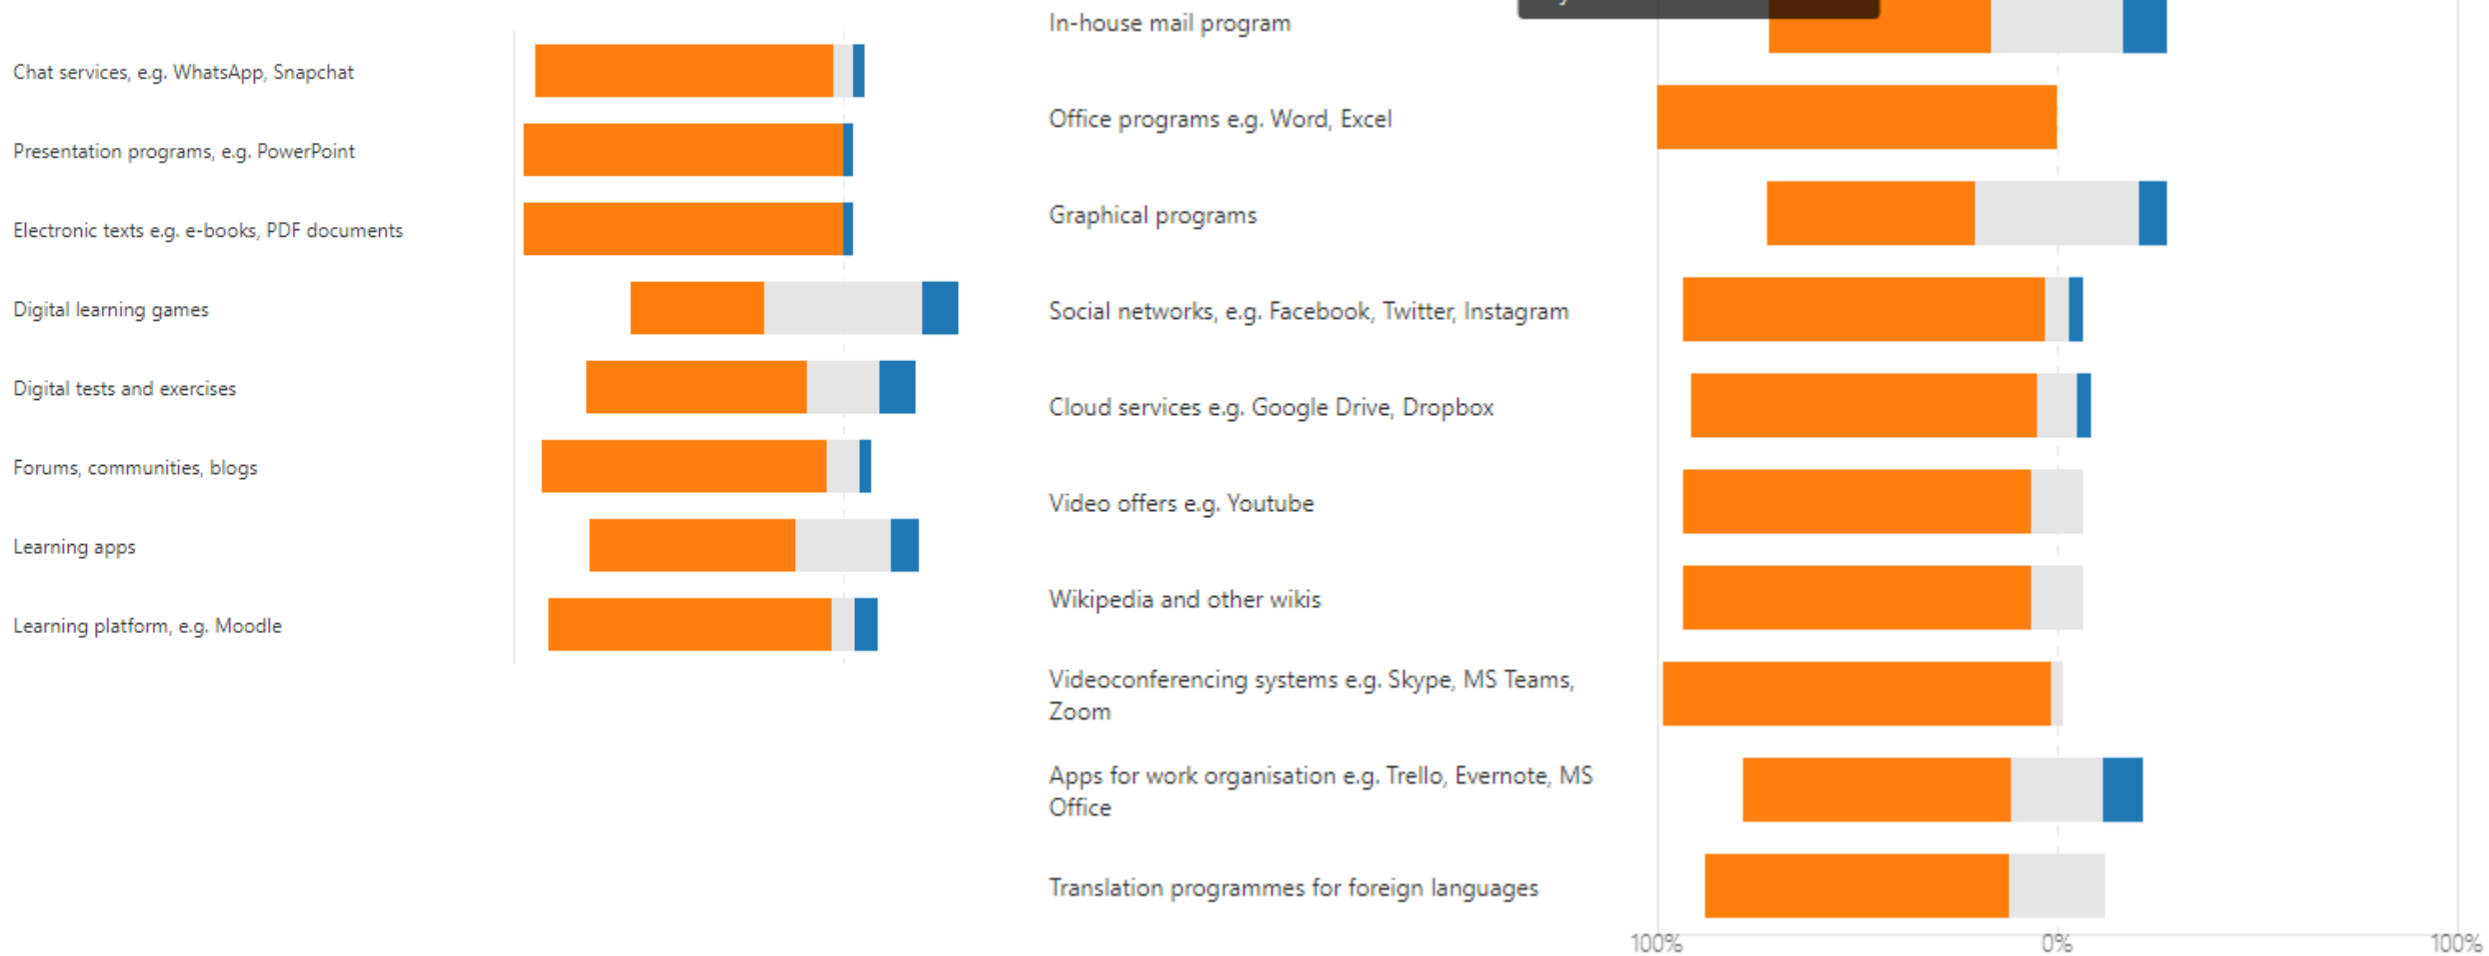

3. Do you use digital devices during work other than those and how do you rate your competence in dealing with them?

- 15 x No
- Online platforms like Huddle for management, Moodle for training or Zoom for webinars and conferences with good competencies
- My work allows me to use all types of digital devices, mostly peripherals dedicated to the work at hand, NAS (= Network Attached Storage) devices, etc. I rank my competence as very good.
- In my work environment I do not have to use any other devices other than the ones mentioned above.
- digital painter and its very usefull for presentations

4. Which of the following technologies and learning applications do you already use in operation?

[Weitere Details](#)

■ yes
 ■ no
 ■ do I not know

5. How is your personal competence in dealing with the technologies and learning application?

[Weitere Details](#)

■ very good
 ■ good
 ■ mediocre
 ■ low
 ■ none

Chat services, e.g. WhatsApp, Snapchat

Presentation programs, e.g. PowerPoint

Electronic texts e.g. e-books, PDF documents

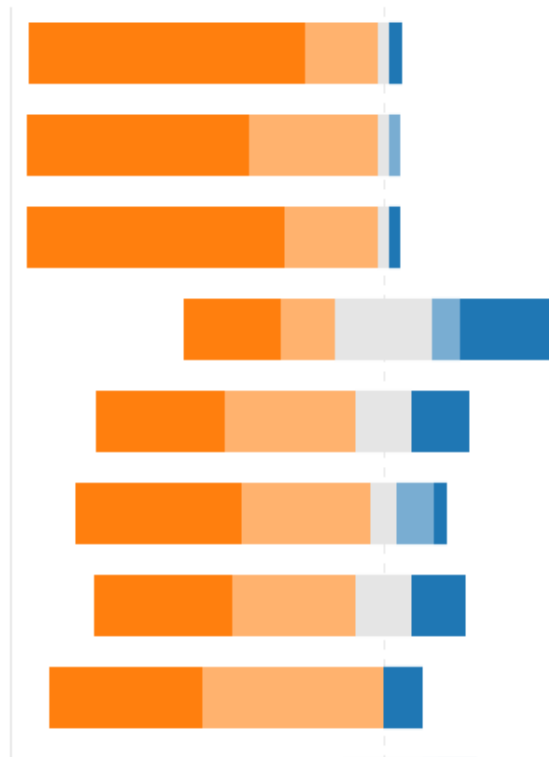

Digital learning games

Digital tests and exercises

Forums, communities, blogs

Learning apps

Learning platform, e.g. Moodle

In-house mail program

Office programs e.g. Word, Excel

Graphical programs

Social networks, e.g. Facebook, Twitter, Instagram

Cloud services e.g. Google Drive, Dropbox

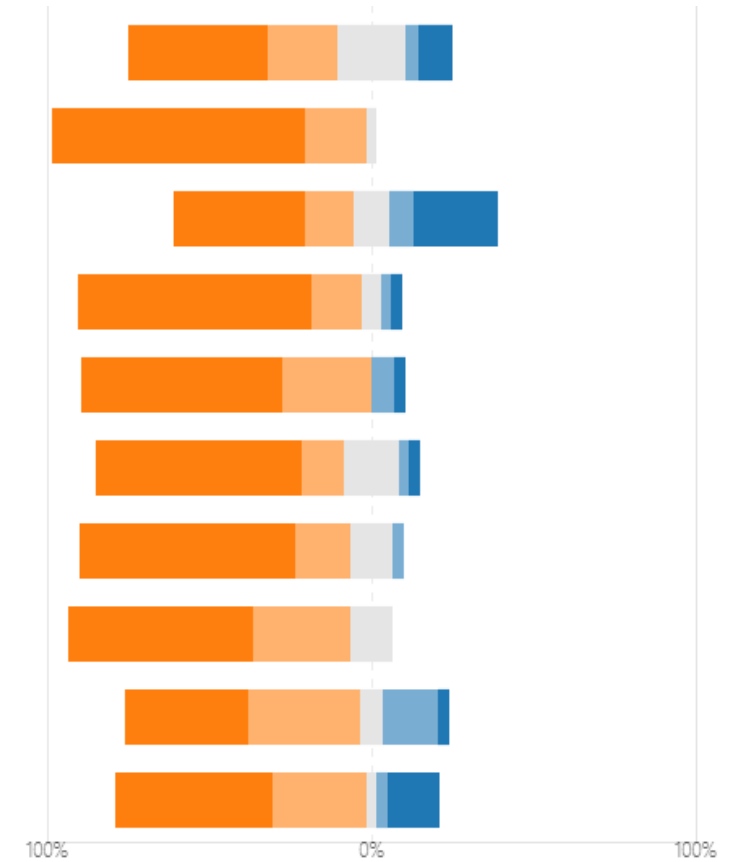

Video offers e.g. Youtube

Wikipedia and other wikis

Videoconferencing systems e.g. Skype, MS Teams, Zoom

Apps for work organisation e.g. Trello, Evernote, MS Office

Translation programmes for foreign languages

7. Would you like to participate in a European web seminar on the basics of digital teaching and learning methods in English language as part of the Erasmus+ project? (Duration approx. 1.5 hours)

[Weitere Details](#)

8. If so, which of the following technologies and learning applications would you like to learn more about in the web seminar?

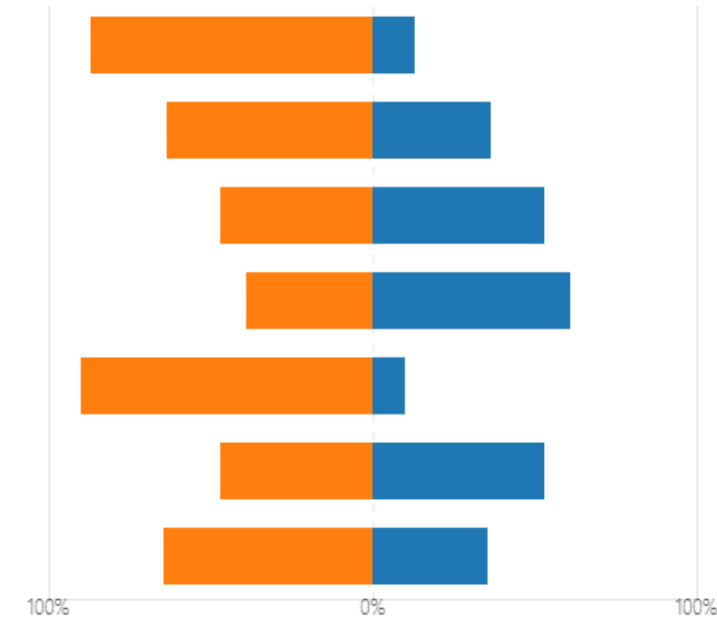

[Weitere Details](#)

■ yes ■ no

9. What would be your wish with regard to such a web seminar?

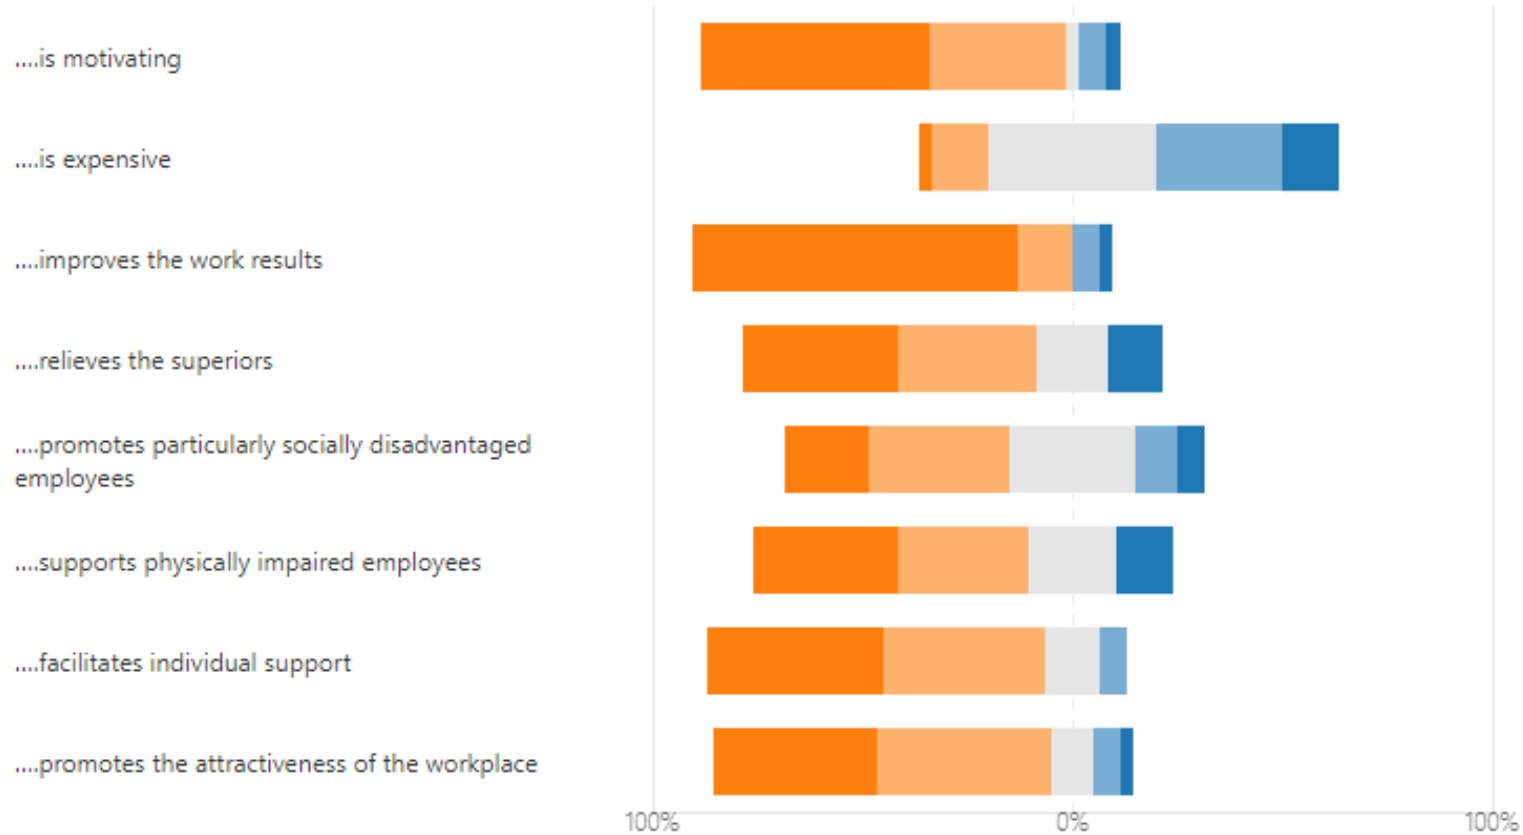

- My wish is to be able to use the learned skills for my daily lectures
- effectiveness in using digital tools
- to find out what are the common electronic instruments used in our times, what's the future bring and how we can improve and coop to a better working environment.
- To know the learning methods
- target-Group relevance
- To develop my abilities concerning the things that I checked above and learn practical aspects.
- I would love to learn something new that can help me in my development, such as graphical programs, digital tests and exercises and also to learn about the reason why they are important, how can we use them to make our work easier.

- get to know more about strong and weak points of digital tools than can be used in our daily practice...practical tips on how to use them for different purposes
- To become more competent on the technologies I am not yet familiar with
- To learn more about new technologies and be more comfortable to use new applications
- Such seminars will be so useful and interesting for all employees to participate, and I hope to make it happen as soon as possible.
- small learning steps
- to use a cloud

10. If you look at your previous experience with the use of digital media during work– how would you assess the use?
